PRESS RELEASE

April 10, 2008

Intelmarx Awarded to Create Web 2.0 Network Site for Research Facility

Social Software Will Allow Stakeholders to Spur Collaboration and Partnerships Between Academia and Industry at the Hershey Center for Applied Research

Altoona – April 10, 2008 – Intelmarx has been awarded a contract to develop a collaborative social network for the Hershey Center for Applied Research in Hershey, PA. The Hershey Center for Applied Research (HCAR) is a research park that offers life sciences and high technology companies at all phases of the business life-cycle state-of-the-art wet and dry lab facilities and office space, as well as access to capital, business support services, and shared amenities. The campus is located adjacent to the Penn State Milton S. Hershey Medical Center and College of Medicine, an academic medical institution that is undertaking approximately \$100 million annually in research, thereby providing a pipeline of opportunities for collaborations and partnerships between academia and industry. Using Intelmarx's web-based software as a solution (SaaS) community-building product SocialGood and Intelmarx's newest enterprise collaboration web-based product ThoughtShare, HCAR is using the software to help spur partnerships and innovation between research scientists, venture capitalists, state economic development agencies and the research park. The research park is a project of Maryland-based real estate development firm, Wexford Science & Technology. The first building of the research park was completed April 27, 2007 and is 80,000 square feet. The campus is master planned to include up to 12 similar buildings. Supporting organizations include the Harrisburg Regional Chamber and the Capital Regional Economic Development Corp., and the Life Sciences Greenhouse of Central Pennsylvania, an organization that was formed to provide start-up money and business support services to early-stage life sciences companies. The land on which HCAR is built is in the heart of the Harrisburg Market Keystone Innovation Zone and is owned by Hershey Trust Company as Trustee for the Milton Hershey School.

Intelmarx's SocialGood and ThoughtShare products are to be re-branded as HCAR KnowledgeMesh™. The HCAR KnowledgeMesh™ will drive research and development in the life sciences sector through quality interactions between and among representatives of industry, academia, government, investment, workforce and support

organizations. Phase One development of the social networking components will be complete by May 14, 2008 with monthly updates thereafter until Phase Two collaboration tools and functions will complete by Summer 2008.

"Organizations want to take advantage of open, flexible Web 2.0 technologies. They want to use social software to add a new dimension of imagination and innovation. INTEL MARX's social and collaboration software for organizations empowers them to be more innovative and execute projects more quickly by using dynamic networks of coworkers, partners and customers. SocialGood is a Web 2.0 driven product which enables a new level of collective intelligence" said George Sackandy, Co-Founder and Principal at Intelmarx.

"Through the HCAR KnowledgeMesh™ the Hershey Center for Applied Research will drive R&D in the life sciences sector and beyond through facilitating quality interactions among and between key stakeholders including researchers, industry executives, investors, government officials and others who are located around the globe," said Laura Butcher, Executive Director of HCAR. "We chose to engage Intelmarx as our partner in the development of the web-based community-building, scientific mapping and collaboration software that supports to HCAR Knowledge Mesh™."

About Intelmarx, LLC

Intelmarx is a software solutions and services company whose primary market is non-profit organizations and higher education institutions. Three proprietary software applications developed by Intelmarx create a complete enterprise solution for non-profit and higher education organizations, associations, faith-based groups and other organizations to help them use the Internet to take relationships to new levels. The company delivers a full suite of online constituent relationship management (eCRM) solutions through a Software as a Service (SaaS) model, along with professional services and support that helps non-profits achieve extraordinary results in fundraising, advocacy, outreach and other forms of mission-critical support. An industry pioneer in online marketing, Intelmarx is developing a community of clients, partners and employees that share ideas, foster innovation and work together to elevate online marketing and the non-profit community as a whole. Contact Intelmarx today by calling 814.941.9218 or visit our website at www.intelmarx.com.
